

WISCONSIN MOUND OPENED.

Skeleton Found of a Man Over Nine Feet High with an Enormous Skull.

MAPLE CREEK, Wis., Dec. 19.—One of the three recently discovered mounds in this town has been opened. In it was found the skeleton of a man of gigantic size. The bones measured from head to foot over nine feet and were in a fair state of preservation. The skull was as large as a half bushel measure. Some finely tempered rods of copper and other relics were lying near the bones.

The mound from which these relics were taken is ten feet high and thirty feet long, and varies from six to eight feet in width.

The two mounds of lesser size will be excavated soon.
